

KLETON

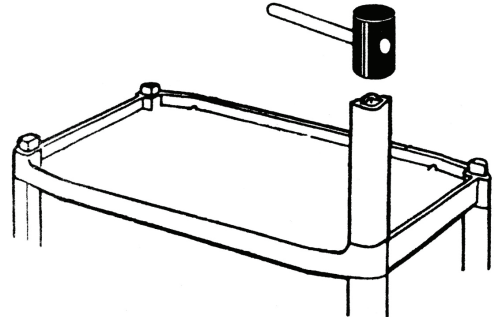

UTILITY CART ASSEMBLY INSTRUCTIONS MODEL NO'S JH486 & JH487

- ①
- Place the bottom level flat on the ground or a sturdy surface
 - Line up the legs with the four (4) corners
 - Using a rubber mallet, tap the legs on to each corner

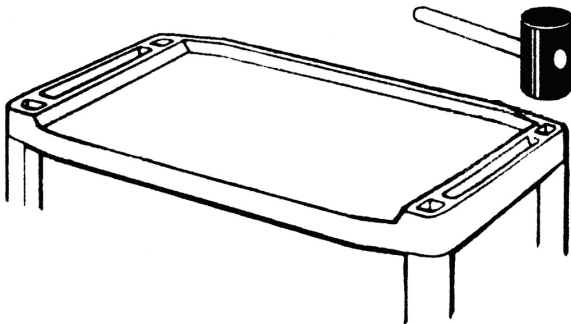

CAUTION: Do Not use a metal hammer or the legs may bend and will not fit properly onto the next level.

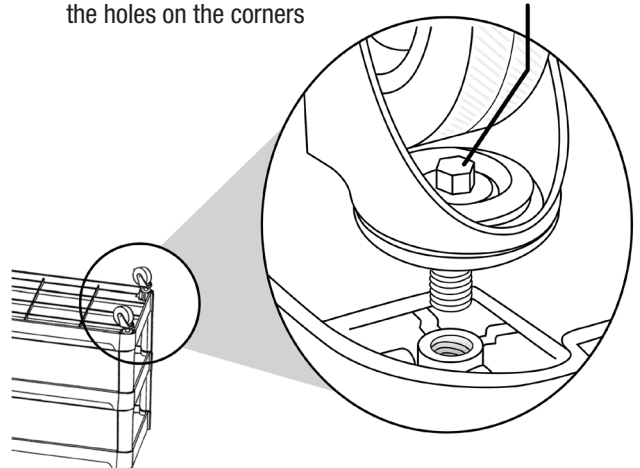

- ②
- Place the middle shelf on the first four legs. Make sure the front faces are lined up (front face has a curved lip lower than the back)
 - Tap the middle shelf down with the rubber mallet
 - Add four more legs and use the rubber mallet to tap down

- ③
- Place the top shelf on the second level of four legs, making sure to line up the front faces
 - Tap the top shelf down into place with the rubber mallet
 - **NOTE:** Do Not add the top handles yet

- ④
- Flip the cart upside down and screw in each of the four (4) caster wheels into the holes on the corners
 - Tighten the center bolt with a wrench

- ⑤
- Flip the cart to stand right side up on top of the casters
 - Insert handles and tap into place with rubber mallet
